## Product Description

### Strong Aesthetic Porcelain Fused to Zirconia for Natural Looking Restorations

#### Product Description:

One of the key features of this product is its strong strength. The layered zirconia material is gentle on the gums and teeth, making it ideal for patients who may experience discomfort with other dental prosthetics. Additionally, the customizable size ensures a perfect fit for each patient, further enhancing the overall comfort of the product.

The PFZ product is also CAD/CAM compatible, allowing for precise and accurate manufacturing. This process ensures that each product is made to the exact specifications of the patient's dental needs, resulting in a highly functional and aesthetically pleasing final product.

The product is milled from zirconia blocks, which provides exceptional strength and durability. The layered zirconia material also helps to improve the overall aesthetics of the product, providing a natural and seamless appearance that blends well with the patient's natural teeth.

In summary, the PFZ product is a high-quality dental prosthetic that offers a range of benefits for patients. Its material provides exceptional strength, durability, and aesthetics, while its hypoallergenic and biocompatible properties ensure that it is a safe option for patients with sensitive skin or allergies. The product's customizable size and CAD/CAM compatibility further enhance its overall functionality and comfort, making it an ideal choice for dental patients looking for a high-quality, long-lasting dental prosthetic.

#### Features:

**Product Name: Porcelain Fused To Zirconia (PFZ)**

**Durability: High**

**Aesthetic: Highly Aesthetic And Natural Appearance**

**Way of manufacture: Milled From Zirconia Block**

**Strength: Strong**

**Feature: Hypoallergenic & Biocompatible**

#### Technical Parameters:

Strength	Strong
Feature	Hypoallergenic & Biocompatible
Natural Transparency	Excellent
Material	Zirconia Block
Size	Customizable
Cad/Cam Compatibility	Yes
Way of manufacture	Milled From Zirconia Block
Durability	High
